

# **Your Future and Queen's: A Student Town Hall**

**Wednesday, March 24th at 5:30**

**Chernoff 117 (corner of Albert and Stuart Streets)**

The value and quality of your degree are at risk. Student voices have been excluded. Until now! Voice your concerns, learn about proposed cuts, and find out what YOU can do! Issues to discuss include:

- Four years of huge classes
- Virtualization of first AND second-year classes
- No tutorials, no labs
- No TAs
- No contact with professors
- Less choice
- Fewer programs
- No staff or faculty to answer your questions
- No guidance, no mentors
- No languages with which to engage the world
- No space for creativity and critical thinking
- Graduating from a program that will no longer exist
- A university with a plummeting reputation....

...And all of this for more money!

Snacks and beverages provided
